EDUCATION

The NorthCap University | Bachelor of Technology in Computer Science and Engineering — Gurugram, India | Expected 2029

• **CGPA: 9.53 / 10.0** (2nd Year Undergraduate) • Senior Secondary (Class XII): 88.0% • Secondary (Class X): 92.17%

TECHNICAL SKILLS

Programming Languages:	Python (Intermediate), C++ (Beginner), C (Beginner), Java (Beginner)
Web & Frameworks:	Next.js 16, React 19, TypeScript, Tailwind CSS, Prisma ORM, NextAuth.js, FastAPI
Developer Tools & Libraries:	Git, GitHub, Linux, VS Code, Android Studio/SDK, PyTorch, SFML (C++), GTK4 (C)
Database & Analytics:	SQL / MySQL (Beginner), Tableau (Beginner)

SELECTED SOFTWARE PROJECTS

Together — Multi-Campus Student Community Platform *Next.js 16, React 19, TypeScript, Tailwind CSS, Prisma, NextAuth*
- Architected an independent full-stack web platform designed to eliminate campus communication fragmentation for students across 33+ Indian universities by centralizing peer commerce, club discussion hubs, and academic tools.
- Engineered a zero-fee peer marketplace, club channels, an interactive 75% attendance rule simulator, and exam countdowns with NextAuth session management and Prisma relational database models.

SamudraVedh — Ocean Subsurface Thermal Reconstruction *Python, PyTorch (U-Net), FastAPI, React, Three.js*
- Engineered an AI/deep learning framework for Smart India Hackathon 2026 (PS26066) to reconstruct 3D subsurface ocean temperature profiles across 15 depth levels (0–1,000m) from satellite surface observations.
- Developed data processing pipelines for Copernicus satellite data (SST, SLA, currents) and trained a U-Net architecture targeting real-time sub-second CPU inference for cyclone heat tracking; cleared SIH 2026 Internal Round.

GUI Hangman: Haunted Forest — Desktop Application *C, GTK4, GStreamer, Event-Driven Programming*
- Developed a horror-themed graphical desktop application in C using GTK4 and GStreamer, exploring event-driven GUI architecture, state management, and asynchronous audio integration.
- Implemented difficulty-scaled word banks, a 60-second survival countdown timer, live terminal event logging, and local file persistence for player profiles, statistics, and high scores.

The Rise of Luminary — 2D Game Architecture *C++, SFML, CMake, OOP*
- Engineered an interactive 2D desktop game leveraging object-oriented design and a modular Finite State Machine architecture (Menu, Battle, Training, Profile states) with a custom rendering pipeline and particle effects.
- Implemented an elemental turn-based combat system and local JSON player profile persistence; secured 3rd Place (2nd Runner-Up) in the Second-Semester Hackathon organized by Xebia.

EXPERIENCE & INTERNSHIP

Xebia IT Architects | Virtual Intern — Virtual | One-Week Virtual Internship
- Completed an intensive virtual internship covering enterprise software engineering workflows, data analysis methodologies, and business intelligence dashboard architecture; awarded Certificate of Appreciation for performance.

ACHIEVEMENTS & HACKATHONS

- **Winner (1st Place):** First-Semester Hackathon organized by Xebia.
- **2nd Runner-Up (3rd Place):** Second-Semester Hackathon organized by Xebia (Project: *The Rise of Luminary*).
- **SIH 2026 Internal Round Shortlist:** Cleared the Smart India Hackathon internal selection round for *SamudraVedh* (Problem Statement PS26066 — Disaster Management).

LEADERSHIP & EXTRACURRICULAR

- **Executive Secretary, Optica Student Chapter:** Spearheading student initiatives, technical symposiums, and organizational operations at The NorthCap University.
- **Technical Head, CLOUD IoT:** Leading technical workshops, cloud/IoT project tracks, and hands-on developer bootcamps at The NorthCap University.
- **Secretary, Brainstorming Club & Class Representative:** Moderated technical discussions and ideation rounds; liaised for 60+ peers with faculty on academics.

CERTIFICATIONS & TRAINING

- **Supervised Machine Learning: Regression & Classification** — DeepLearning.AI & Stanford (Oct 2026) | Verify Credential
- **Introduction to AIML Using Google Cloud** — Google Cloud training organized by Xebia (Nov 2025, Participation).
